

THE BEST PRICE PERFORMER IN THE MARKET

Effective smoking solution
for private company use

SMART
smoking cabin

Smoke without the smell the ideal solution for low to medium use.

Euromate offers a complete line of products to filter tobacco smoke. Unwanted tobacco smoke, unpleasant odours and harmful gases and particles can be filtered in a smoking cabin.

SMART Smoking Cabin

The freestanding SMART Smoking Cabin can be installed everywhere in your building and is easy to replace. Ideal for a quick and efficient cigarette break in offices, production and logistic companies.

The effective 5-phase filter system has a long service life and removes tobacco smoke efficiently. Besides the energy saving electronic controlled motor (*average use 40W, maximum use 90W*) the cabin is equipped with a start/stop system. The sensor detects people entering the cabin so the air is only cleaned when the cabin is used which also saves energy. The compact size of only 1450 x 1000 x 2350 millimeters blends in everywhere and can be built up in around two hours!

Features and advantages

Unique 5-phase filtering system

Hour counter and adjustable fan speed

Automatic start / stop system by detection sensor

Selfclosing doors

Optional: lean bars for extra comfort bamboo or metal (Brandschutz)

Self-extinguishing odourless ashtray suitable for 1600 - 2000 cigarette butts

EUROMATE OFFERS ALL-IN SOLUTIONS FOR AIR CLEANING

Euromate has over 40 years of experience in the field of air cleaning. This provides in-depth knowledge of indoor air and removal of air pollutants.

For optimal use of the air cleaner regular maintenance by a professional is recommended. A service contract can be agreed with our sales organization.

There are various maintenance agreements possible, depending on the filter choice and the degree of air pollution.
